

Lesson 4

Step: Count in 5s

How many bananas are there?

There are 5 bananas in each bunch.

There are 4 bunches.

There are 20 bananas in total.

How many doughnuts are there?

There are 5 doughnuts on each tray.

There are 7 trays.

There are 35 doughnuts in total.

How many fish are there?

There are 5 fish in each tank.

There are 5 tanks.

There are 25 fish in total.

Count in 5s starting from 5.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30

What do you notice?

All the numbers ending in 5 and 0 have been shaded.

Complete the number lines by counting in 5s.

Complete the number lines by counting in 5s.

Complete the number lines by counting in 5s.

Complete the number lines by counting in 5s.

Which number is the odd one out?

40

35

29

20

Explain how you know.

29 is the odd number out as it is not divisible by 5.

I have 30 doughnuts.
Each tray holds 5 doughnuts.
How many trays are there?

Explain your working.

6 trays.

Counting up in 5s six times will get the answer of 30.
