

Visual calculation policy - Addition

Y1 $14 + 5$

When adding a single digit number you can jump in 1s or use number bond knowledge.

Y2 - Blank number line method

$24 + 5$

$+1+1+1+1+1$

$43 + 25$

20 5

Units first!

Y3 Expanded column addition

$$\begin{array}{r}
 47 + 76 \\
 = 40 + 7 \\
 \underline{70 + 6} \\
 110 + 13 = 123
 \end{array}$$

Partitioned numbers are written above one another.

Y3 Compacted column addition

$$\begin{array}{r}
 336 \\
 + 458 \\
 \hline
 794
 \end{array}$$

The carried numbers.

Y4 -Y5 Adding decimals

$$\begin{array}{r}
 15.71 \\
 34.62 + \\
 \hline
 50.33
 \end{array}$$
